

# INNOVATION & STRATEGICAL ROVI

## **INNOVATION and TECHNICAL SUPPORT**

Improving the conception of your products together with your production methodologies are essential to your progress.

We help you to design and implement solutions.

**We commit ourselves contractually to the production of long lasting results**

### **Through a specifically adapted approach, including :**

- expectations well defined with you
- deliverables defined as contractual commitments
- solutions supported by contracted experts
- outcomes built through a close collaboration with your team

### **Conducted by an experienced team providing you with :**

- an extensive scientific and technological culture
- a deep knowledge of industrial organizations
- a real practice of design-to-market product development

### **Supported by external high level competencies :**

- experts and/or laboratories
- specifically adapted to the subject
- from France, Europe or the whole world

**a**ccélérateur de votre progrès
